గమనిక: క్రింద ఇవ్వబడిన సమాచారం ఆధారంగా Q. 11 నుండి Q. 15 ప్రశ్నలకు సమాధానాలను వ్రాయండి.

The mansion of Ebenezer Storer, an extensive edifice of wood three stories in height, was erected in 1700. It was situated on Sudbury Street between two trees of great size and antiquity. An old English elm of uncommon height and circumference grew in the sidewalk of the street before the mansion, and behind it was a sycamore tree of almost equal age and dimensions. It fronted to the south with one end toward the street. From the gate a broad walk of red sandstone separated it from a grass-plot which formed the courtyard, and passed the front door to the office of Mr. Storer. The vestibule of the house, from which a staircase ascended, opened on either side into the dining and drawing rooms. Both had windows towards the courtyard and also opened by glazed doors into a garden behind the house.

ఎబెనెజర్ స్టోర్ యొక్క భవనం, మూడు అంతస్తుల చెక్కతో కూడిన విస్తారమైన భవనం, 1700 లో నిర్మించబడింది. ఇది సడబరీ స్ట్రీట్ లో రెండు పెద్ద పురాతన చెట్ల మధ్య ఉంది. భవనం ముందు వీధి కాలిబాటలో అసాధారణమైన ఎత్తు మరియు చుట్టుకొలత కలిగిన పాత ఆంగ్ల ఎల్మ్ చెట్లు పెరిగాయి మరియు దాని వెనుక దాదాపు సమాన వయస్సు మరియు కొలతలు కలిగిన ఒక తాప చెట్టు వీధి చివర దక్షిణం వైపుగా వంగింది. గేట్ నుండి ఎర్ర ఇసుకరాయితో కూడిన విశాలమైన నడక బాట. గడ్డి పెరడును దాటి, మిస్టర్ స్టోర్ కార్యాలయ ముందు తలుపును చేర్చుతాయి. ఇంటి వసారా ప్రకరణ నుండి మెట్లు మొదలై డైనింగ్ మరియు డ్రాయింగ్ రూమ్ లోకి ఇరువైపులా చేర్చుతాయి. రెండింటికి పెరడువైపు కిటికీలు ఉన్నాయి. నగిషీ తలుపులు ద్వారా ఇంటి వెనుక ఉన్న తోటలోకి ప్రవేశం ఉంది.

Embedded librarianship is most commonly associated with undergraduate and distance education. Drewes and Hoffman (2010) explained that “embedded librarian programs often locate librarians involved in the spaces of their users and colleagues, either physically or through technology in order to become a part of their users’ culture”. In other words, the LIS professional becomes an extension of the teaching function of an academic department or unit and part of its social structure. Embedded librarians might contribute to the creation of instructional modules for either face-to-face or online courses, provide in-depth research assistance to students or faculty, and hold office hours (Schulte, 2012). In some instances, the librarian is available electronically through the course management system. Embedded librarians might also provide personalized functions in-person or online, including tutorial services, produce interactive guides and links, and perform chat functions. In order for such programs to succeed, the participating LIS professionals must have excellent communication and interpersonal skills, a strong service ethic, a flexible and creative disposition, and enjoy collaboration (Drewes and Hoffman, 2010). By becoming part of the local or online community, the academic librarian is more likely to be perceived as part of the learning team, a faculty collaborator, and instrumental in the academic program’s success. Hamilton (2012) summarized the significance of embedded librarianship well “As information literacy becomes an essential literacy and form of cultural capital in today’s world, embedded librarianship offers exciting possibilities for teaching these processes and skills within content area study over an extended period of time.
